Honouring ending to Erna Moldzios 85. Birthday

We all look on a very much moved century back. It was a special century. Our country and our world has it as much changed as no time period before.

Mrs. Erna Moldzio participated. It saw almost the whole century, was pleased along-suffered and it with the contemporaries also. Today we are pleased with Mrs. Moldzio that them their 85. Honour day in would experience, with good consciousness and still satisfactory health may. An impact accumulation in January changed Mrs. Moldzios life crucially. God is owing to, because even lately had been returned it much of what possessed her health once, again.

Mrs. Erna Moldzio is not size of history. She remained - consciously - a simple woman - like one it so landlaeufig says. Why we honour even this great woman in special way however, dear zuhoererin, dear listener, loves zuschauerin, dear spectator, which we would like to try to describe them.

Mrs. Moldzio is for many honest and helpful simple humans, straight, upright and with dignity through her moved life went, by a life, which - straight - so intolerably heavy the political sizes of history made all for the many small people. With all the disappointments and missing, which Mrs. Moldzio had, she remained always a responsible fellow man.

The First World War raved, also East Prussia was not spared, when Mrs. Moldzio in the small - today Russian - northeastPrussian place Tapiau removes, approx. 40 km east from the former king mountain, when 3. of 7 children saw the light of the world. Was it a goettliche adding or is it modest life satisfaction, if much, much smoothed Mrs. Moldzio of its lucky childhood in the simplicity rural parents' house reported? Even ones of this content peace and separatingness tell with much printout artful pictures of the Mrs. Moldzio again and again. Erna Moldzios showed already in its childhood their special art gift and the slope to hold experienced beautiful affectionately in printoutful pictures. For its talents however only time was in the peace of the age.

We from the editorship moorland cock us have a small work of art with a proud moorland cock to our recognition symbol auserkoren!

Of the moved post-war period, Mrs. Moldzio does not report to anything. The family had pulled into a simple single family house into the proximity of all stone, in the today's Polish part of southeast Prussia.

1 May 1936 remains always a special day in the life of the Erna Moldzio. In all stone, directly at the eastPrussian southeast boundary to Poland the trained Frisoese becomes acquainted with their - first and only - man with the tanz into May. Their Beschuetzer it wanted to be, but it was not allowed it finally.

So far confusions and Beschwernisse of history passed simply Mrs. Moldzio. First, at least up to the outbreak of war, also for its man the world remained in order. As mode salesmen of many years in a large firm in Lyck he understood himself always excellently with his Jewish employer. Also the bad events of the Nazi period, so also from the realm crystal night 1938 penetrated at best from newspaper reports to the in the meantime young married couple. For the notionless Lycker broke the 2. World war so completely surprisingly out. The Moldzios experienced of it from the radio when hanging the baby laundry its first up of three children.

And suspected all felt the bad events only now, first in form of special safety precautions before possible hostile encroachments directly at the boundary to Poland. Now - so-called large history - the that got so far smooths however lucky lives of so many small people also in the most distant angle of the German one at that time of Reich. It determined from now on the life of all, also that the ignorant however perhaps therefore so far lucky family Moldzio which was - in all-worst way.

The hobby glider model construction amateur and father Heinz Moldzio was already drawn one week later into the military service. Only some few weeks of the military vacation periods it still the family was vergoent still. Which Zynismus is in a reason of the large ones of the time, "... thereby the man for people and realm still more father of future fighters and settlers could become... ". At the end of December 1944 in senseless defense fights already long of

the lost war is the father in the meantime three children in the Belgian Eupen Malmedy at the boundary to Germany please. It is however nevertheless buried on the there honour cemetery.

Now driving out and escape determined the life of many innocent. However with their 3 children the war widow Erna Moldzio hate, pursuit, Entwuerdigung, NOT and distress had to bear, worst fates, which were caused to the rachsuechtigen hostile missetaetern in addition. However - and that is the large merit/service of the Mrs. Moldzio - it remained true humans.

Erna Moldzio helped not only escape and suffering companions crucially and it forwards so entwuerdigenden rapes retained. Perhaps in terrible confusions of the end of war also other of children had taken the widow and nut/mother into their Obhut and had protected it death - simply from obligation opposite helpless next ones. Mrs. Moldzio had lost everything nevertheless, their man and the homeland, and she had to provide in her leiblichen and mental NOT in addition for the own 3 infants.

Erna Moldzio is not size of contemporary history. It stepped answer again back into the background of the everyday life and remained widow: She dedicated herself alone to her children, when in the post-war period the life became again worth living. Today nobody seems to speak more of, which let so-called " small people " ascend in the highest NOT and the largest distress of worst time periods to true human models - sizes -. We are there safe us, of Mrs. Erna Moldzio are one - from surely many humans - who turned a still more terrible fate away in times of furchtbarster measurement acts and worst experiences for so some fellow men. Doesn't special honour earn?

We of the editorship moorland cock honour the many, many other so-called " small " people, which kept, retained our life willful and human with the Mrs. Erna Moldzio also all or let become again worth living. Our society needs honorable humans such as Erna Moldzio, thereby us at least one section is preserved or is returned from what us Grossmann-addicted, self-addicted, irresponsible and inconsiderate large ones to have taken or take.

Only conceivable good health, above all however a worthy life in the peace and leaving a honorable age, we of the editorship moorland cock of the Mrs. Erna Moldzio require everything to property, still many lucky days in satisfaction, with as much as possible.

It plays on the Russian chapel " Tschaika ". The orchestra came specially for our Ehrenjubilarin Mrs. Erna Moldzio out sank Petersburg flown - admittedly - naturally only electronically in our honour video!
